

How To Create A NFT On NFT WORLD

Step 1: Sign In

1. Access The Sign In Page: Visit [Your Marketplace Name]'s Homepage.
2. Enter Your Credentials: Type In Your Username And Password.
3. Select Account Type: Choose Your Account Type (User, Agency, Or Brand).
4. Click Sign In: Proceed To Sign In And Access Your Dashboard.

Step 2: Navigate To The Dashboard

1. Confirm Successful Login: Ensure That You Are Logged In And Can View The Dashboard.
2. Get Acquainted With The Dashboard: Take A Moment To Explore Various Sections And Functionalities.

Step 3: Connecting Your Wallet

To Mint An NFT, You Can Start By Using A Temporary Wallet:

1. Navigate To The "Connect Wallet" Option On The NFT-World Platform's Header.
2. You Have Two Choices For Signing In:

Sign In With Your Google Account.

Alternatively, Enter Your Email Address And Proceed To Verify It. Upon Verification, Your Temporary Wallet Will Be Created And Ready To Use.

If You Prefer To Create A New Permanent Wallet With MetaMask:

1. Visit The Official MetaMask Website At [Www.Metamask.io](https://www.metamask.io) Using Google Chrome.
2. Download The MetaMask Wallet And Add It As A Chrome Extension.
3. Click On The MetaMask Wallet Icon In Your Browser And Select The "Polygon Mainnet" Blockchain From The Wallet's Network Dropdown Menu.

To Fund Your Wallet, Use The "Buy Matic" Feature, Which Allows You To Add MATIC Tokens To Your Account.

Step 4: Start The NFT Creation Process

1. Navigate To NFT Creation: Click On The 'Create New NFT' Button Within The Dashboard.
2. Open Collection Dropdown: Locate And Click On The 'Collection' Dropdown Menu.

Step 5: Create A New Collection (If Necessary)

1. Check For Existing Collections: Look Through The List Of Deployed Collections In The Dropdown.
2. Create A New Collection: If Your Desired Collection Is Not Listed, Click On The 'Create New' Collection' Button.

Name Your Collection: Provide A Unique And Meaningful Name.

Add A Description: Detail What Your Collection Represents.

Set Short Collection Name: Choose A Short, Symbolic Name (Up To 5 Characters).

Determine Royalties: Establish The Royalty Percentage For Sales.

Choose A Category: Select The Category That Best Fits Your Collection.

Upload A Blockchain Logo: Add A Logo Associated With Your Collection's Blockchain.

Save And Continue: Proceed To Publish And Save Your New Collection.

Step 6: Deploy The Collection

1. Return To The Dashboard: Navigate Back To The Main Dashboard Area.
2. Go To 'My Collections': Find And Select The 'My Collections' Tab.
3. Locate Your Collection: Identify The Collection You've Just Created.
4. Deploy: Click The 'Deploy' Button Adjacent To Your Collection.

Connect Your Wallet: Ensure Your MetaMask Or Other Wallet Is Connected.

Pay Deployment Fees: Approve The Transaction And Cover Any Associated Fees.

5. Activate The Collection: Upon Successful Deployment, Choose To 'Activate' Your Collection. By Default It Is Active After Deploying You Have An Option To Hide.

Step 7: Complete NFT Details

1. Return To NFT Creation: Go Back To The 'Create New NFT' Section.
2. Select Your Deployed Collection: From The 'Collection' Dropdown, Pick The Collection You've Just Deployed And Activated.
3. Fill In NFT Information:
 - Upload Image: Add The Image File For Your NFT.
 - Name: Provide A Unique And Descriptive Title.
 - Add A Description: Elaborate On What Your NFT Represents.
 - Set A Price: Determine And Input The Price.
 - Define Stock: Specify The Stock Quantity (If Applicable).
 - Establish Royalty: Set The Royalty Rate For Sales.
 - Select A Category: Choose The Appropriate Category For Your NFT.
4. Proceed: Move Forward In The Creation Process.

Step 8: Minting And Publishing The NFT

1. Go To 'My NFTs': Navigate Back To Your NFT Listings, Found Under 'My NFTs' Or 'Recently Added NFTs'.
2. Select Your NFT: Identify And Choose The NFT You Wish To Mint.
3. Mint:
 - Opt For The 'Mint' Action.
 - Note: Minting Is Free, But A Voucher Signature Via MetaMask Is Required.
 - Sign The Voucher: Complete The Signature Process To Continue.
4. Publish: After Signing, Select 'Publish' To Make Your NFT Publicly Available.

Step 9: Decide NFT Visibility

1. Set Display Options: Click On The 'NFT Live On' Button.
2. Choose Viewing Platforms: A Dropdown Will Appear With Options For 'On Marketplace' And 'On Your Storefront'.
